

## SALINE SCHOOL RECORDS

### Saline School Records Book 1 - 1874-1899

(These records are transcribed from handwritten school record Book One (of six). These are important records because they show the birth date of the child, the parents name, where they lived and years they entered school. There are some instances of the occupation of the father. The years are not in exact order, but generally they are, so look clear to the end. I don't know how they figured this numbering system, but it does not appear to be consistent. Dates are listed with day first, then mo. and year. Transcriber Diane Wardlaw. I have put the Wardlaw related names in bold.)
