

SALINE SCHOOL RECORDS

Saline School Records Book 2 - 1900 - 1905

(These records are transcribed from handwritten school record book two (of six). These are important records because they show the birth date of the child, the parents name, where they lived and years they entered school. There are some instances of the occupation of the father. Most of the children left the school at age 14, possibly because this school only went to that grade, many left to go to work. **Date sequence in this book switches to Month, Day, Year.** Transcriber Diane Wardlaw. I have put the Wardlaw related names in bold.)
